Checkpoint 4 Sprint D 02-06-2022

Your peer review comment is too short

He always helps when someone needs it, contributes a lot to the project. Sometimes is distracting with jokes, but I consider it as an advantage.

Responsible, contributed a lot. Sometimes could be more empathic with other team members

Can be impulsive sometimes, was late on 2-3 meetings. Other than that, he did his task really good and helped others a lot

Overall did a good job.

It is not always clear when he is joking or serious.
